

**Andrew W K Langstieh**  
Chairman, DVC

## From the Chairman's Desk

2nd February 2018

My Dear DVCians,

For just a shade under three and-a half years now, I have enjoyed the professional benefit and pleasure of our association as colleagues and friends. It is therefore, with a deep sense of personal loss that I am informing you that I am separating from DVC today to report back to my parent department. Notwithstanding this separation, I want you to know that I will cherish the life-long friendships I have made in DVC. I am immensely grateful beyond words for the unstinted support and encouragement I have received in abundance from every DVCian from my very first day in DVC. Starting from that moment on, we have together, with a renewed sense of purpose, served our Corporation to the best of our abilities. Today, the results of our toil are there for all to see - there can be no better substantiation of this irrefutable fact that when complete strangers from outside our organization walk up to me and tell me that things have changed, and are changing, for the better in DVC. The entire credit for generating this positivity about our Corporation goes to Team DVC and I feel enormously privileged to have been a part of the team that is making this happen. While our Corporation today is unquestionably on a stronger footing than it ever has been in the recent past, I must also caution that the road ahead for DVC is still full of challenges. I am confident though that if Team DVC continues in the same spirit and with the same resolve and determination displayed these past few years, these challenges will be overcome.

It has been a wonderful opportunity to work with you as my valued colleagues. As I step out of DVC Towers for the last time today, let me once again sincerely thank each one of you for everything and I wish the Corporation and Team DVC every success in all its future endeavors.

Jai Hind!

Yours Sincerely,

A handwritten signature in blue ink, which appears to read 'A. Langstieh', is written over a horizontal line.
