

Vigilance Awareness Week-2023

Chairman's Message

Dear Colleagues,

30th October 2023

Our country is moving on a path of significant economic growth, and we aspire to be one of the most developed countries in the world. In pursuing these objectives, integrity and honesty in both public and professional life is of utmost importance. Over the years, technological and public awareness initiatives have aided in the prevention of corruption to a large extent. However, there is a need to continuously reinforce and spread awareness about the ways of combating corruption. One such initiative is the observance of the Vigilance Awareness week once a year. Like every year, the Central Vigilance Commission (CVC) has decided to observe Vigilance Awareness Week from 30th October to 5th November 2023 involving all stakeholders across the country with the following theme:

“भ्रष्टाचार का विरोध करें; राष्ट्र के प्रति समर्पित रहें”

“Say no to corruption; commit to the Nation”

As a stakeholder, Damodar Valley Corporation will be observing Vigilance Awareness Week throughout the organization. This period is an opportunity for us to educate ourselves and others about the detrimental effects of corruption. As responsible citizens, it is our duty to stand up against corruption in all its forms and to be vigilant in our daily lives. In our workplaces, and communities, we must foster an environment that promotes ethical conduct and zero tolerance for corruption.

Let us together make Vigilance Awareness Week 2023 a successful and participative initiative.

(M. Raghu Ram)
Chairman
