

DETAILS OF CONTRACTS AWARDED ON SINGLE TENDER (OEM/OES/PAC/SS) BASIS ---- issued from HQ C&M									
PERIOD : March-2024									
Sl. No.	Name of the Project	Details of Work	Name of the Awardee	Type or Nature of Single Tenders (OEM / OES/PAC/SS etc.)	Reason / Justification for awarding the work on Single Tender Basis	Work Order No. and Date	Value of Contract Awarded	Related DFP under which the Work has been awarded	Status of Work
1	BTPS/HQ	Procurement of NDCT Blow-down Submersible Pump for DVC, BTPS (IX500MW); KSB Make, Type- KRTK 100-315/234 on OEM basis	M/s. SAN ASSOCIATES / KSB LTD, Jamshedpur	Single (OEM/OES)	There are two (02) nos. of NDCT Blow down pump installed at water package, BTPS, DVC. All parameters of the water are maintained by chemical dosing and periodically blow down of basin water by NDCT blowdown pump. These pumps runs approx. four to five hours daily as per requirement. Originally two (2) no. of Blow down pump of KSB make were installed in water package, both the pump got damaged, also stock position of NDCT Blow down pump was nil so two vertical pumps were arranged from old ‘B’ plant and installed in their place but their performance is not as needed, discharge of the pump is not as original/previous pump hence there is a requirement of (2) no. of NDCT Blow down pump of KSB make. The above indented item is in the approved Capital spare list and in OEM list.	DVC/Contract/Head Quarter/MS-II A/CMM/Supply/00003/Capital; GEMC-511687739706075	1006000	2.3(i)	...

2	BTPS/ HQ	Procurement of Complete Screw Element Assembly for Mill Reject Compressor under CAPEX for Bokaro- 1X500 MW, DVC	GENERAL TRADING/ ELGI EQUIPMENTS LIMITED	Single (OEM/OES)	<p>Coal Mill Reject Compressor are installed in two nos. quantity, one working & another in standby and are required to be operated continuously for mill rejection of coal mills by conveying pressurized air. In this way incombustible heavy debris are removed ensuring efficient running of the mills and maintained burning of coal in furnace which has direct effect on the efficiency of unit. As such, conveying air compressor are required to be operated trouble-free to fulfill the above purpose. Desired Air pressure is required for effective rejection of coal milling system. As per last ARC visit by the OEM on 20.06.2022, ELGI Equipment's India Ltd, it was recommended to keep one set of Air end assembly (screw element) (Report copy attached-CP-6) of Mill Reject Compressors. The screw element assembly are proprietary items of the OEM and are made exclusively as per design requirement of the Mill rejection system. Considering the necessity as per above, it is being intended to procure One set of Air end Assembly. Present stock of the indented items is nil. Also, these types of compressors are nowhere installed in other projects of DVC. Also, all the indented items are included in the list of OEM as per office order As per 0.0. DVC/Head Quarter/CMM/861 dated 04.11.22, Annexure -V of Turbine under sl no. 33 of compressors.</p> <p>In view of above, it is being proposed to procure "Complete Screw Element Assembly for Mill Reject Compressor" on OEM basis under DFP (G&S) SL NO. 8.3(i)- 2021.</p>	GEMC- 511687785183478; DVC/Contract/Head Quarter/TG A/CMM/Supply/00016/ Capital	2276987.4	2.3(i)	...

3	BTPS/ HQ	Annual Service Contract for KONE make Goods and Passenger Elevator installed at Main Power House Boiler area 1X500 MW Unit,BTPS,DVC	KONE ELEVATOR INDIA PRIVATE LIMITED	Single (OEM/OES)	<p>Passenger and goods lift of KONE Make are installed in the boiler area of unit for movement of man-power to various elevations of Boiler.</p> <p>Availability of these elevators is considered essential for safe O&M activities of the plant. Due to unavailability of these lifts, delay in operation and maintenance may affect the generation of the unit since these elevators contains electronics cards and various software components and controllers so regular maintenance /servicing is very much essentials for smooth and safe operation of these elevators. since this is a specialized job, our departmental manpower is inadequate to carry out the proposed job of ARC of maintenance / servicing of these elevators. KONE elevators Ind . Pvt. Ltd is the OEM of these lift and it has supplied, erected and commissioned these elevators. Hence it is proposed to engage the OEM M/s KONE Elevators India Pvt. Ltd for ARC. Boiler goods and Passenger Lift is under Annual Service Contract vide WO No.- DVC/Contract/BTPS/ES-I A/C&M/Work and service/00059 Dated 17/09/2022 and date of commencement of work is 16/12/2022, its running ARC will expire on 15/12/2023. Scope of work and BOQ has been standardized for KONE make Goods and Passenger Elevator installed at Main Power House Boiler area of 1X500 MW Unit, BTPS for a period of two year on OEM basis. There is no deviation from standardized scope of work and BOQ. Considering the lead time in finalization of contract, It is felt prudent to go for the subject ARC for maintenance of KONE make Goods and Passenger Elevator installed at Main Power House Boiler area of 1X500 MW Unit, DVC, BTPS after expiry of the running contract (mentioned above) for smooth functioning of Goods and Passenger Elevator DVC, BTPS.</p>	GEMC- 511687750248066 (DVC/Contract/Head Quarter/ES-I A/CMM/Works and Service/00005)	3524160	3.3(a)	...

4	BTPS/ HQ	Procurement of filter elements installed in HPSU unit of LP Bypass system, Make - EATON, installed in BTPS-1X500 MW Unit.	SNC COMMERCIAL/ M/s Eaton Industrial Products Pvt. Ltd.	Single (OEM/OES)	HPSU (high pressure oil supply unit) installed in LP Bypass system of BTPS 500 mw unit. The healthiness of these system is essentially required for smooth operation of LP Bypass system which is very critical for start-up and shut down operation of the unit. Filters installed in HPSU is required to be readily ensured for their cleanliness. As per Eaton, the OEM, the old filter element cannot be cleaned and has to be disposed. As such, the spare filter elements are required to be kept in stock to maintain minimum inventory and to meet any exigencies. Also it is to be mentioned that no other 500 MW capacity stations of DVC have been provided with Bomafa make LP Bypass HPSU, as such, in case of any exigencies it will be difficult to make the filters available at our disposal. Considering the criticality of the above, it is intended to procure spares of these filters from Eaton, the OEM. 5	BTPS/ HQ	PROCUREMENT OF SPARES FOR BEML DOZER BD-355 of DVC, BTPS.	BEML LIMITED	Single (OEM/OES)	Dozers are vital for coal feeding as per CHP layout schema at BTPS as it is deployed for feeding as well as crushing, stacking & reclaiming of coal and dressing of raw & crushed coal yard. Hence, availability of Dozers are of utmost importance and are directly related to the generation of the plant. At present we have four nos BEML Dozers (03 nos D-155 Model & 01 no BD-355) are in operational for round the clock for coal feeding, coal crushing & dressing of coal yard. Dozer BD-355 is a high capacity main stay Dozer. Dozer Model BD-355 is very old & continuously under service at CHP since 2006. At BTPS coal feeding, dressing & stacking is being done with the help of departmental Dozers. After COD of 500MW unit, running hours of dozers have been increased due to increased quantity for coal feeding in the running units of BTPS. At BTPS coal dressing & stacking of both yard is being done with the help of departmental Dozers. Moreover, there is no other alternative to feed coal as per CHP layout for sustained generation. Dozers are subjected to adverse working condition subjected to wear & tear of its spares have also been increased with enhance running hours. As such, availability of spares is essential to be kept Dozes in operational. Hence, aforesaid spares as per its condition requiring replacement and bare minimum spares for ensuring its availability is required to be procured from OEM i.e. BEML Ltd	GEMC- 511687751967733 (DVC/Contract/Head Quarter/CHP- 1/CMM/Supply/00011)	1699329.8	2.3(i)	...

6	BTPS/ HQ	Procurement of spare motor of make Radicon power build for paddle feeder and stacker reclaimer travel drive installed at CHP 1*500MW unit of DVC BTPS on OEM basis.	POWER PLUS/ POWER BUILD PVT. LTD.	Single (OEM/OES)	<p>There are a total 08 numbers of travel drive motor installed for 04 no's paddle feeders (02 no's motor each paddle feeder) and 06 no's travel drive motor installed for stacker cum reclaimer pertaining to CHP of 1X500 MW unit which are continuous in service since inception of main path CHP. These motors needs to be kept healthy as they are continuous in service for either stacking the coal during the unloading process from track hopper or reclaiming the coal during the unloading process from track hopper, so as to feed the bunker for maintaining the stable and sustained generation of the unit. Due to ageing, multiple switching operations and mechanical stress on these motors, performance tends to deteriorate and sometimes fail accidentally. Therefore, a minimum quantity of spare motor need to be always available so that the immediate replacement can be done with in minimum time period. Considering above mentioned conditions, the procurement of the spare travel drive motor for paddle feeder and stacker is very much essential and the quantity to be procured is as per our current requirement as per our forecasting. M/S Radicon Powerbuild is the OEM of the Travel drive motor. Hence for proper retrofitting with 1:1 interchangeability the procurement of spare motor from OEM is felt very much essential. Items are as per equipment's enlisted in annexure II of OEM/OES list issued by ED(C&M) vide no DVC/Head Quarter/CMM/861 dated 04.11.2022 under LT motors(1/3) describing All LT special type motors(complete)such as geared motor used for ccrd & pcrd, paddle feeder, LT motor for slew drive, bucket wheel of SCR, special motor of stacker-reclaimer, unbalance motors used for vibro feeders, crane and hoist motors compressors air dryer motor, chute vibrator motor, Wagon tippler motor</p>	GEMC- 511687761012320(DV C/Contract/Head Quarter/ES-II A/CMM/Supply/00006)	915526	2.3(i)	...
---	-------------	---	---	---------------------	---	--	--------	--------	-----

7	BTPS/ HQ	Procurement of Boiler HP Valves and its spares for Upcoming overhauling of BTPS (1X500 MW) Unit.	Bharat Heavy Electricals Limited, SSBG-Eastern Region.	Single (OEM/OES)	<p>The Indented items are the spares of high pressure valves of boiler BTPS 1x500MW. Various types of High Pressure (HP) valves are installed in Boiler, it has different role to play. Proper functioning of valves is necessary for smooth operation of the Boiler and is expected to be kept in healthy condition all the time to prevent heat loss from Boiler as well as safety of the personnel engaged in operation and maintenance of the Boiler. As such they are required to be serviced and cleaned in every capital/short shutdown or as and when required basis. During continuous running of the unit, passing in valve/leakage from its bonnet/gland occurs, steam cut /dent mark develops on seat & disc, required lapping of seat & disc to prevent steam leakage/passing and sometime steam cut /dent mark is beyond repairable by lapping process, needs replacement of the disc, bonnet seal ring, soft iron gasket/complete valve assembly. So that too much spares of valves consumes during servicing of valve. Sufficient number of spares has to be kept in stock for normal replacement as well as emergency requirement against failure to cope up the high lead time of procurement, delivery period, expected consumption in the near future and subsequent troubles in pressure line for normal operation. These are extremely critical spares whose availability has to be ensured during overhauling as well as for any day to day requirement. Overhauling of BTPS-A plant is scheduled in Feb'24. The demanded quantity covers the requirement for both upcoming overhauling of the Unit as well as the minimum stock that is to be kept in hand. Mandatory spares and last procurement against PO No- DVC/Contract/BTPS/MS-I A/C&M/Supply/00066 dated 10/07/2020 were used during last overhauling Nov'21. At present stock position of the HP valves and its spares are not healthy to cater the running maintenance as well as upcoming overhauling of the Boiler. Proposed indent is having some FTP (First time procurement) item which was not procured in last PO of HP valves. These valve and its spares are used in HRH ERV isolating (R53, R59), Eco feed line drain (E15), SH O/L header vent (S-31), WW DRAIN HDR DRAIN TO IBDT (B100) etc. Last time mandatory spare was available to cope up these requirements. These are critical valves and its servicing is required in every overhauling. At present stock position of the HP valves and its spares are not healthy to cater the running maintenance as well as upcoming overhauling of the Boiler. Detailed justification and utilization program against each item have been attached in separate sheet. Considering the critical application of the items and procurement lead time from OEM indented quantity seems justified although some items are more than moving average.</p>	GEMC-511687782387705/DV C/Contract/Head Quarter/MS-I A/CMM/Supply/00007	8873200.1	2.3(i)	...
